

W/E 05.03.2021 Seesaw Highlights.

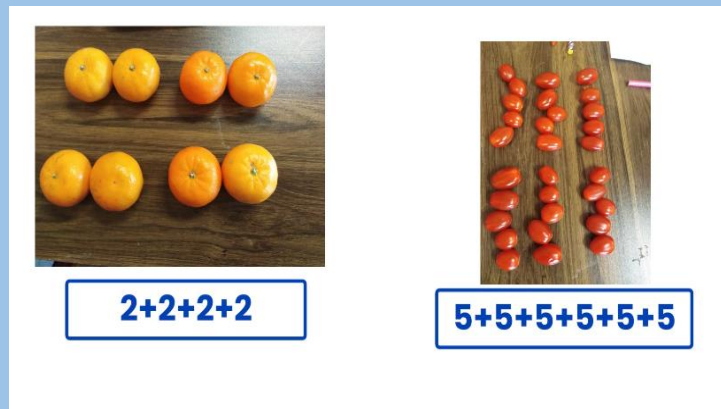

Sapphire Learning Zone

Maths

This week we have had a great time using concrete resources to represent problems.

Jake used a wide range of resources.

Ruby used fruit to represent her repeated addition.

Dexter and Daniel

The children in school explored the outdoor area for resources.

Jayden, Wesley and Olly.

Geography

In Geography, we have looked closely at Durham City. We have created, 'Wish you were here' postcards.

Willow created an eye catching postcard, with the Cathedral on.

Olly drew one of the bridges crossing over the River Wear.

Ella wanted to draw the statue she has seen when she last visited.

Character Development

In Character Development, we read a book all about our emotions. We thought about our emotions on our return to school.

George is feeling nervous and excited.

Henry can't wait to be back with his friends.

Scarlett feels happy and can't wait to see all of her friends.

R.E.

In R.E, we have looked at the Last Supper. We have drawn our own Last Supper scenes and added some thought and speech bubbles as if we were Jesus and his disciples.

Isla's version is great. She thought carefully about what everyone might be thinking.

Tommie's version of the Last Supper was very thoughtful too. He really thought about what the disciples might be thinking.
